DETAILED ACTION

1. The Appeal Brief received June 30, 2006 is noted. However, since claim 12 is directed to a non-statutory subject matter according to 35 USC 101, prosecution has been reopened, and claim 12 is rejected under **35 USC § 101** as shown below.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claim **12** is rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter, a signal per se. Claim 12 recites "a signal comprising an information unit in which a watermark is embedded, the watermark comprising a command to be executed by a controllable device, the signal having been rendered using at least one of a video device and an audio device, the controllable device capable of receiving the signal from at least one of the video device and the audio device." Thus, claim 12 is directed to a signal per se, i.e., directed to non-statutory subject matter.

Allowable Subject Matter

4. Claims **1-11,13-22** are allowable over the cited prior art.
